## WORK EXPERIENCE

---

### IT Assistant (Part-Time)

JIT Campus IT Services | Jan 2023 – Present

- Resolved 15+ weekly technical issues for students and faculty, including software troubleshooting and network connectivity.
- Automated routine system updates using Python scripts, saving 10+ hours monthly for the team.

### Volunteer Tutor

Code4All Nonprofit | Jun 2022 – Aug 2022

- Taught Python and web development basics to 30+ high school students, resulting in a 40% increase in coding proficiency.
- Collaborated with 5 tutors to design project-based curricula and mentorship sessions.

## PROJECTS

---

### Student Course Planner App | Full-Stack Developer

- Built a web application using React and Node.js to help students plan academic schedules, serving 200+ users.
- Integrated MySQL DB for data storage and implemented user authentication, reducing login errors by 25%.
- Enhanced UI responsiveness with CSS Grid, improving user satisfaction scores by 30%.

### Library Management System | Java Developer

- Designed a Java-based system to automate book tracking and borrowing processes for a campus library.
- Reduced manual data entry time by 40% through JDBC and MySQL integration.

## CAREER OBJECTIVE

---

Motivated Computer Science student with foundational expertise in Python, Java, and web development seeking an internship to apply academic knowledge in real-world projects. Eager to contribute to innovative solutions while enhancing technical and collaborative skills in a dynamic team environment.

## EDUCATION

---

B.S

Computer Science
